Dear Parent / Guardian

Re: Flu Like Illness

We are writing to you to let you know that a number of children who attend Penketh High School have been off sick with flu-like symptoms.

We have sought advice from the local Public Health England Health Protection Team. They have advised that although flu like illnesses can be unpleasant, if you're otherwise healthy it will usually clear up on its own within a week.

Symptoms can include fever, an aching body, dry cough, headache, sore throat, diarrhoea or tummy pain, feeling sick and being sick.

To reduce the spread of infection it is important to keep children with any symptoms of flu-like illness away from school until they have recovered, are free of symptoms and have not had a fever for at least 24 hours. Good respiratory hygiene i.e. covering nose/mouth with a tissue when coughing or sneezing, discarding tissues after use and washing hands with water and soap, is also important to reduce the risk to others.

Flu can cause serious illness in those with other health problems.

It is important that any pupil, staff member or household contacts (such as grandparents or pregnant women) who fit into any of the eligible / "at risk" group list below have their seasonal flu vaccine each year. If you believe you / your child or any household member fits into the group below and has not already had their seasonal flu vaccine, please ensure they get vaccinated **(by your GP or school as appropriate).**

The following are in an "at risk" group and eligible for flu vaccination:

Those aged 65 years and over

Those aged six months to under 65 years with chronic lung, heart, kidney, liver or neurological disease, or those who are immunosuppressed and those with diabetes mellitus

Pregnant women

Those resident long term in care homes

Those who are morbidly obese (BMI >40)

Carers - If you are the main carer for someone who is elderly or disabled

Additionally, all children aged two to ten years on 31st August 2019 are eligible for the free flu vaccine.

If you are concerned about you /your child's illness, particularly if you/your child are in an "at risk" group, please contact your GP. If you contact your GP about this, please have this letter to hand.

Further information is available at www.nhs.uk/conditions/flu/.

Yours faithfully,

Mr J Carlin
Principal
